**STEIN, BRETT B.**

**BPR # 004800**

February 04, 1988

County: Shelby

District: 9

Public censure on February 4, 1988. His client spent 1-1/2 years in prison for rape because a blood test, which could have proven his innocence, was not taken. He failed to fully investigate this case and to advise his client fully and sufficiently enough so that the client would have been in a proper position to make a complete judgment. Stein admitted understanding the use and significance of the secretion blood test and should have advised his client of the availability of that test and of the ramifications of his client having a blood test type done, if he did not know what his blood type was.
